Sexual Harassment of Male

An Individual's interpretation of sexual harassment is framed by various kinds of social factors like religion, education & past experiences with sexual harassment. It is also very awkward to investigate the malleability of how an individual expresses sexual harassment acts. Sexual violence can happen to any soul, no matter what the age is. We usually perceive and see harassment cases related to females only and this is the reason that legislations are made only for the women victims. But they don't mean that men are away from the evil of sexual harassment. Now days males face one in ten cases of sexual harassment also. Men and boys who have been sexually abused may have many of the identical feelings as other survivors of sexual assault. But they face many additional changes because of 'social ridicule' and stereotypes about men masculinity. According to Higher Education Commission (2011) policy guide lines of sexual harassment is an everyday reality which occurs in the classrooms, offices, research laboratories

Aim And Objectives.

1. To explore the legal provisions and guidelines on sexual harassment of both male/female in educational institutions towards sexual harassment issues.
2. To uphold women right to protection and men right to livelihood.

3. To evolve a permanent mechanism for the prevention, prohibition and redress of sexual harassment of male/boys in the institution.
4. To actively promote a social, physical and psychological environment that will raise awareness among boys and girls.
